

Layered-Look Book

1. Stack two sheets of paper so that the back sheet is one inch higher than the front sheet.
2. Fold up the bottom edges of the paper to form four tabs. Align the edges so that all of the layers or tabs are the same distance apart.
3. When all tabs are the same size, crease the paper to hold the tabs in place and staple or glue the sheets together.

Glue the sheets together along the *valley* or inner center fold or staple them along the *mountain top*.
